

Total solar eclipse of 2006 March 29

Why most tourist companies around the world choose Libya?

Libya is favourite place to see the total solar eclipse of 2006 March 29 due to the following factors:

- 1) - It is the only country that its sky stays clear and free of clouds during the eclipse moments.
- 2) - Location of Libya in the middle of international flights, where it needs only from two to three hours by plane to reach to the most European capitals.
- 3) - The high degree of safety and security which are available in Libya.
- 4) - Good economical situation, the official facilities and preparation which done to receive this event.
- 5) - found of eclipse track in the desert far away from cities and population.
- 6) - Greatest Eclipse occurs in Libya (10:10 UT/ 4m 07s)
- 7) - Duration of Eclipse ranged from 4m07s to 3m 56s)

At this occasion Almohandes Tours Company organizes a special tour to see this unique event.

Camping

Campsite:

Our company chose two sites for camping:

1) Region of Wadi Shoaba, 147 Km south of Tubruk, at the crossing Point of 24.93 longitudinal line with 30.83 transverse line, close to Tubruk-Jaghbob road.

Temperature is 12 C during January and 28 during June.

Desert climate.

2) Region of Al Wahat, 79.5 Km southern-east Jallo, at the crossing Point of 21.8 longitudinal line with 27.71 transverse line, close to Jallo-Kofra road.

Temperature is 12 C during January and 28 during June.

Desert climate:

- In this region there are a lot of oasis.

Each camp consists of:

Number of tents	Kind of tent	Size
750	4*2	2 persons
375	4*4	4 persons
167	4*6	6 persons
